

# Organizing a meeting or webinar to discuss the Listings Act and funding for deep tech scale-ups

## Geographical distribution

### Skeleton Technologies

Improving funding for deep tech scale-ups and the framework for IPOs in Europe was one of the points raised by the EU Unicorns Group. We are therefore interested in organizing a meeting or webinar gathering European unicorns, the European Commission and Parliament, as well as representatives of European Stock Exchanges to discuss about challenges and opportunities of doing IPO in Europe for deep tech scaleups, as well as discussing about the Commission's plan for a Listings Act.
