

Sweden Innovation Days event that focuses on how to enable innovation that has a real impact on our society, environment and economy

Geographical distribution

Swedish Incubators and Science Parks

This digital event (free of charge) will focus on how to enable innovation that has a real impact on our society, environment and economy. Despite Sweden being a climate front runner, we still have a responsibility to contribute to the global goals.

The event is dedicated to fostering international collaboration, so whether you are a startup, intermediary or corporate, working in the public sector, civil society, academia or a government agency.
