

## Transilvania IT Cluster

Transilvania IT Cluster & Transilvania Digital Innovation Hub, through the Boost project planning to help in creating an inclusive, structured, fast-lane collaboration framework that maximizes the value of innovation to society and reduces regional innovation gaps for innovation actors, institutions, and places from Europe. The purpose is to close the innovation gap between the EU countries, to foster innovation at the SMEs level, to facilitate collaboration between innovation stakeholders: making the right people meet and helping them save time on contact-making and to create synergies and opportunities for knowledge and expertise sharing
