

### Cleantech

Cleantech Bulgaria supports the innovation ecosystem by bringing together business, academia and science for a systemic change and twin transition of the Bulgarian economy.

As a business network for sustainable development, Cleantech Bulgaria is one of the key actors in the startup support for the Bulgarian ecosystem. Since 2013, the organization constantly supports start-ups to grow their innovative solutions.

Cleantech Bulgaria is an experienced manager of numerous accelerator programmes under the EIT KICs and contributes to the growth of Bulgarian start-ups by providing them with coaching and mentorship, funding and access to the vast EIT network and available programmes.

- Constant support to Bulgarian start-ups through advisory services
- Regular participation of Bulgarian startups in international competitions
- Existing point of contact for EIT and the EIT business creation programmes.
