

## Startup LU

Making Europe the Startup continent & representing the Luxembourg Startup Ecosystem for the implementation of the NEIA.

We foresee to increase the numbers of startups that succeed in the EU, to make the network stronger & more reliable. As Luxembourg is in the middle of the EU (geographically) we have strong bonds with our neighbours (Germany, Belgium, France, Netherlands) where we could join forces.

## Flagships

## Budget/Financing

To be further defined

**Public** **Private** **Grant** **Other**

## Description

## Deliverables and milestones

- Attending all possible meetings and events
- Being responsive, open-minded, helpful by giving feedback from the view of our startups
- Helping to lobbying the work towards ministries and political parties to make EU more startup friendly
